# The latest in battery technology

## LiHDX – For the ultimate in performance

LiHDX battery packs, with tabless technology, are made for heavy duty applications.

# Li HDX

With our new 18 Volt LiHDX battery packs, we take performance to the ultimate level, because we know intensive tasks require maximum power for the best results. Revolutionary tabless technology makes this possible by eliminating resistance bottlenecks that restrict the flow of current.

### Stronger output.

Thanks to the extreme performance of LiHDX battery packs, demanding tasks are handled easier and faster - whether you are grinding, drilling or sawing.

### Longer lasting.

LiHDX battery packs deliver up to 85% longer runtimes, compared to LiHD, in the toughest applications. Tabless technology makes LiHDX battery packs the longest-lasting in their class.

### Faster charging.

Charge faster with the new ASC 290 16A charger. It will charge an 8.0Ah LiHDX battery pack in around 30 minutes!

### The ultimate performer for the toughest jobs.
